

FUOCO

FAST-ACTING INTENSIVE CARE

ANTI-CELLULITE, REMODELING AND REDENSIFYING

VAGHEGGI

AN INNOVATIVE LINE

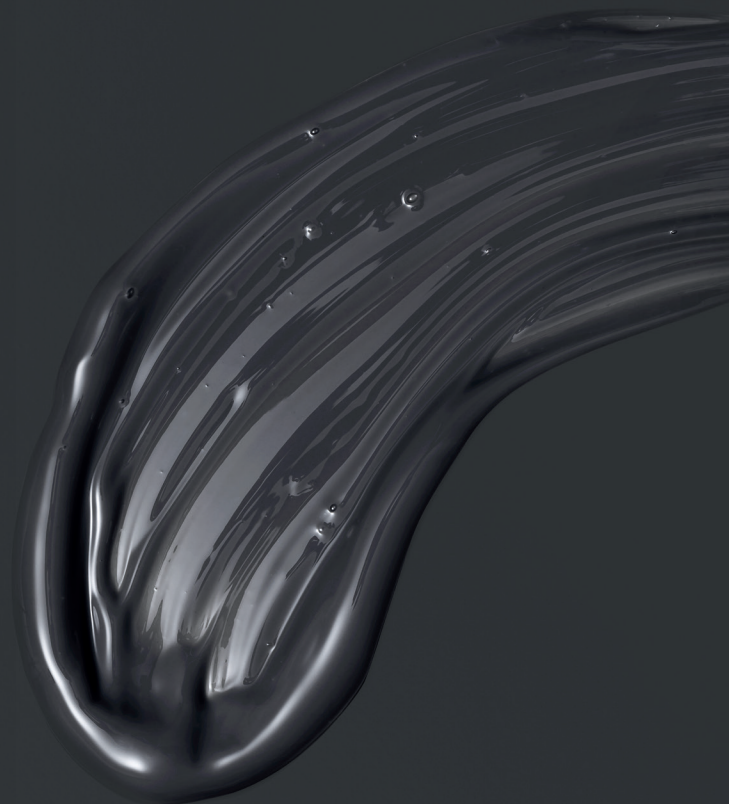

Fuoco is now revealed in an advanced technological version, inspired by the unprecedented scientific progress in the fight against cellular aging (senolytic science) and incorporating an innovative lipomodeling action, aimed at reducing, reshaping and redensifying the skin of the body.

It embodies a futuristic approach that revitalizes fabrics and visibly transforms the silhouette. It stimulates the tissues and reveals its first effects from the 4th session, by simultaneously acting on the causes of cellulite, localized fat, lack of tone and premature aging of the intoxicated tissues.

THE PERFECT ALLIANCE BETWEEN NATURE AND SCIENCE

The reducing and modeling action of *Nephelium longana*, also known as Dragon's eye due to its black seed, helps to reshape the silhouette. The anti-aging power of plant stem cells, derived from sustainable and inexhaustible resources, obtained from *Altea rosea*, specifically targets aging fibroblasts, often called *zombie cells*.

Research on cellular aging has revealed the existence of these atypical cells which, although they have stopped dividing, have not died. They release inflammatory molecules that disrupt the functioning of surrounding healthy cells, thus accelerating skin aging.

HIGH-PERFORMANCE ACTIVE INGREDIENTS

DRAGON'S EYE

Extract of *Nephelium longana*, a tropical fruit of the lychee family, rich in vitamin C and B group vitamins, as well as iron, magnesium, potassium and phosphorus. It also contains polyphenols, including corilagin. This active ingredient reduces the appearance of cellulite, while reshaping and redensifying the skin of the body. Its extraction, carried out in a sustainable way, comes from the seeds of the edible fruit.

IN VITRO EFFICACY TEST

- ▶ Inhibits the differentiation of pre-adipocytes into mature adipocytes, capable of containing fatty deposits.
- ▶ Reduces the storage capacity of lipids, reducing the extension of adipose tissue.
- ▶ Fights against the development of new capillaries, helping to reduce the progression of cellulite and the orange peel effect.
- ▶ Limits the disorganization of fibers and proteoglycans in the hypodermis, reducing fat storage and the appearance of padded skin.

IN VIVO EFFICACY TEST

Slimming effect on the thighs and waist after 30 days of application with a decrease of:

- ▶ Thigh circumference reduced by up to 1.4 cm
- ▶ Waist circumference reduced by up to 2.2 cm

MALVAROSA NERA

It is an *Altea rosa* with black petals. The extract is sustainably obtained from plant stem cells (inexhaustible plant sources), harvested from the petals of the plant and grown in the laboratory.

This active ingredient acts as a true «hacker» of the senescence process. As a senolytic, it selectively targets and eliminates aging fibroblasts, also known as *zombie cells*, thereby helping to combat skin laxity and body imperfections.

IN VITRO AND IN VIVO EFFICACY TEST

- ▶ Selectively eliminates *zombie cells*.
- ▶ Helps fight against sagging skin and body imperfections.
- ▶ Stimulates the synthesis of collagen and elastin.
- ▶ Rebalances the popular cell, reducing the average age of skin cells.
- ▶ Improves skin elasticity, with a redensifying and rejuvenating effect.

HIGH-PERFORMANCE ACTIVE INGREDIENTS

VOLCANIC SAND

Mineralizing action.

DIORITE

Volcanic mineral, igneous rock formed by the cooling of volcanic magma, rich in minerals such as silica, iron, aluminum and manganese, with a remineralizing action.

CAFFEINE

Found in numerous plant species such as coffee, tea, mate, cola, guarana, and, to a lesser extent, in cocoa plants. It has lipolytic properties and is notably effective in stimulating drainage and removing stagnant fluids (anti-edema function).

ADENOSINE

Has a restructuring action.

SODIUM HYALURONATE

Super moisturizing action.

VANILLIN BUTYL ETHER

[Sculpting Booster]

A sweet thermoactive agent.

METHIL NICOTINATE

[Critical Zone Cream]

A thermoactive agent.

CAPSICUM

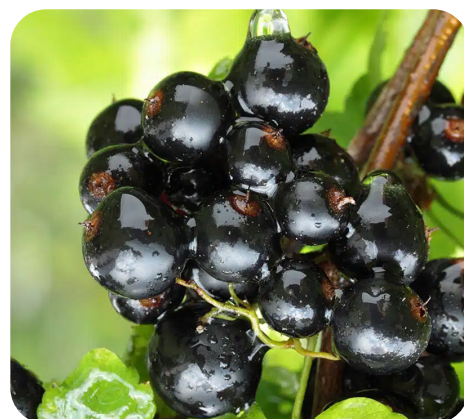

[Body Reducing Mud]

Commonly known as chili pepper, capsicum is a plant from the Solanaceae family native to the Americas. The fruit of the chili pepper plant contains capsaicin, which activates metabolism, helps increase capillary elasticity, and improves blood circulation.

MENTHOL TO CYCLODEXTRINS

[Body Reducing Mud]

Cyclodextrins are cyclic oligosaccharides derived from starch by biotechnology, allowing a controlled release of menthol; the latter causes an initial vasoconstriction followed by vasodilation.

PROFESSIONAL PRODUCTS

INTENSIVE CONCENTRATE – SCULPTING DROPS

50 ML | \$33.75

Professional product with malvarosa nera and dragon eye extract, with a reducing action on body imperfections and a lipomodeling effect.

Ingredients: Nephelium longana seed extract, althaea rosea flower extract, caffeine, adenosine, allantoin and sodium phytate.

BODY MASSAGE – ANTI GRAVITY MASSAGE

500 ML | \$62.50

Innovative texture for a suction-like, tissue expansion massage that lifts and redensifies for full-body reduction and contouring.

Ingredients: Adenosine, xanthan gum, volcanic sand, and charcoal powder.

SCULPTING HEATING POWDER BODY – STONES AND CAST

5 X 200 G | \$120

NOTE: The leggings are sold separately for local application on the body (molding): **\$5.25**

Diorite and volcanic sand, shaped by the hands, are activated and give off a spontaneous heat to combat the unsightliness of the body (cellulite, adiposity and atony).

Ingredients: Marine mud extract and pumice stone.

BODY REDUCING MUD – RE-SHAPING MUD H/C

1000 ML | \$101

An intensive hot/cold treatment that reduces imperfections caused by cellulite and fat deposits, redensifies and sculpts the silhouette.

Ingredients: Rice starch, adenosine, caffeine, nephelium longan seed extract, althaea rosea flower extract, menthol, lemon zest oil, peppermint oil, thyme flower/leaf oil, capsicum, charcoal powder, volcanic sand and cyclodextrin.

HOME CARE PRODUCTS

SCULPTING CREAM

– BODY REDENSIFYING AND REDUCING

200 ML | \$62.50

Black cream with volcanic minerals, a velvety, melting texture that combats cellulite; the Malvarosa helps block skin senescence caused by *zombie cells*, while the dragon's eye extract performs a reducing action with a lipomodeling effect on the body profile. Reducing effect on body imperfections (cellulite, adiposity, loss of tone).

Ingredients: Caffeine, nephelium longana seed extract, althaea rosea flower extract, adenosine, vitamin E, coconut oil, pumice stone, volcanic sand and charcoal powder.

SCULPTING BOOSTER

– BODY SCULPTING AND REDUCING

100 ML | \$36.50

An intensive serum that proactively delivers malvarosa nera and dragon's eye extract; fights cellulite, fat deposits and lack of tone. Lipo-sculpting and *zombie cells* eliminating. Fast-absorbing texture with a delivery technology specifically designed for body skin. Its fast-absorbing texture is based on advanced diffusion technology, designed to suit the skin of the body.

Ingredients: Nephelium longana seed extract, althaea rosea flower extract, vitamin E, vanillyl butyl ether, sodium hyaluronate, volcanic sand and charcoal powder.

CRITICAL AREA CREAM

– RE-SHAPING THERMO CREAM

200 ML | \$52

Thermal action cream designed to stimulate and detoxify tissues affected by cellulite and adiposity. It has an intensive slimming action to treat localized fat accumulations in the waist, abdomen, hips, buttocks and arms.

Ingredients: Nephelium longana seed extract, guarana seed extract, methyl nicotinate, sodium hyaluronate, vitamin E and coconut oil.

BODY BUTTER - MODELING AGE 50+

200 ML | \$55

Melting texture for a perfectly sculpted silhouette, with a shaping action effective even during menopause thanks to microalgae. Mallow rose helps block “zombie cells”, which contribute to skin aging.

Ingredients: Sodium hyaluronate, caffeine, plankton extract, hollyhock flower extract, tocopheryl acetate, tocopherol, cupuaçu seed butter, shea butter and coconut oil.

QUICKLY VISIBLE RESULTS

4 PROFESSIONAL TREATMENTS + FOLLOW-UP AT HOME

Tests carried out after 4 professional treatments and one month of use of the products at home on 20 women aged 18 to 65.

AVERAGE DECREASE

- ▶ **Hip circumference:** -1.3 cm (up to a maximum of -3.5 cm)
- ▶ **Waist:** -2.2 cm (up to a maximum of -5 cm)
- ▶ **Thigh circumference:** -1.3 cm (up to a maximum of -3 cm)

AVERAGE INCREASE

- ▶ **Collagen intensity:** +18% (up to a maximum of +60%)

MEDIUM IMPROVEMENT

- ▶ **Appearance of orange peel skin:** 57% (up to a maximum of 96%)
- ▶ **100% of the participants are satisfied** with the result on their figure.
